REMARKS

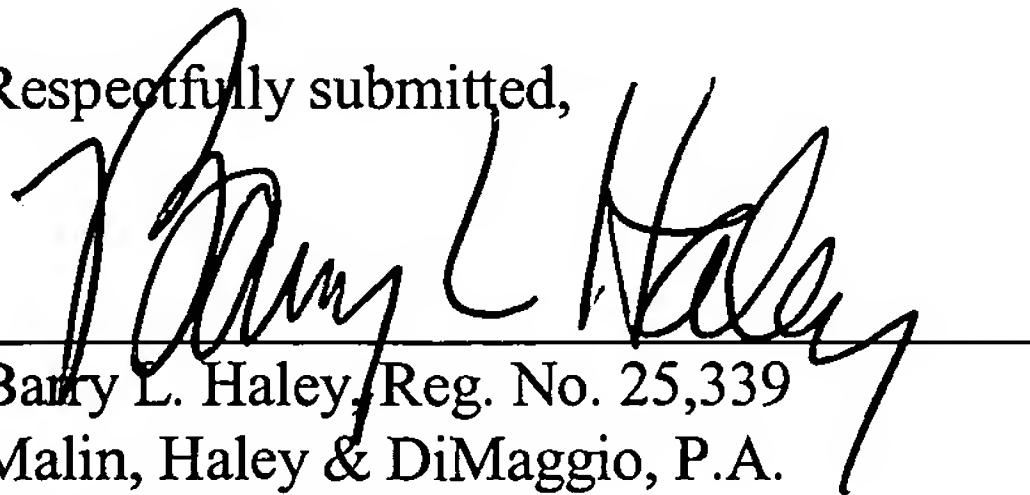

The Examiner's rejection of claims 1-3 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is respectfully traversed. In claim 1, applicant has amended "the skin," "the automobile engine," "said steering wheel cover," "the electric current," and "the engine" to provide sufficient antecedent basis for each of the limitations in the claim. The claim, as now amended in claim 1 and claim 3, provides antecedent basis for each of the limitations mentioned.

The Examiner has indicated that claims 1-3 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, second paragraph, set forth in the Office Action.

Applicant notes that the prior art made of record and not relied upon U.S. Patent Publication 20030093187 to Walker discloses some features in common with the present invention.

Any additional charges, including Extensions of Time, please bill our Deposit Account No. 13-1130.

Respectfully submitted,
